Funds Validator LLC
cheryl@FundsV.com
ph +1.570.205.4020
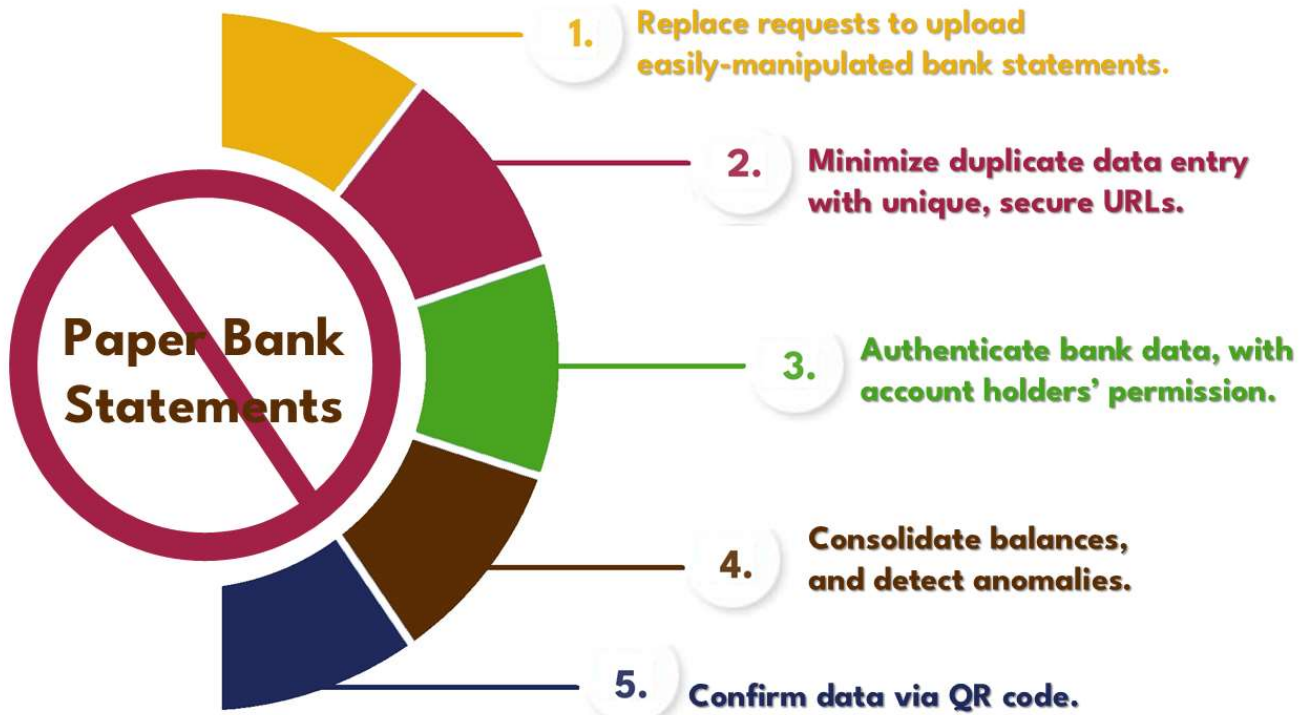

Prompt the "self-select effect" by empowering genuine international applicants and their sponsors to authenticate their bank data – improving efficiency and integrity.

FundsV serves as a conduit for authentic bank-generated data – modernizing the universally inadequate due diligence phase for globally-minded students, counselors, host campuses, governments and other stakeholders.

**Paper Bank Statements**

1. Replace requests to upload easily-manipulated bank statements.
2. Minimize duplicate data entry with unique, secure URLs.
3. Authenticate bank data, with account holders' permission.
4. Consolidate balances, and detect anomalies.
5. Confirm data via QR code.

## Features

- Choose full API integration or stand-alone option
- Enhance privacy by segregating data
- Secure financial data via end-to-end encryption
- Receive results within minutes

## Terms
